Usability Test Introduction

Thank you for participating in this usability test for Hey, Neighbor! Your feedback will help us create a better sharing experience for the Calvin University community.

System Vision

Hey, Neighbor! helps Calvin students save money, reduce waste, and build community by making it easy to borrow and lend rarely used items within a trusted campus network.

Your Goals During This Test

You'll act as a Calvin student who wants to:

- Find and borrow items you need
- Lend items you don't use often
- Save items you might be interested in borrowing later

We're checking how easily you can use the platform to complete typical sharing tasks. There are no wrong answers!

Key Context: Why Hey, Neighbor! Exists

Unlike the Calvin Bookstore, which requires purchasing, or rental services like Yoodilize, which charge fees and lack a local community focus, *Hey, Neighbor!* offers a free, peer-to-peer platform that combines the convenience of a rental service with the social involvement of a neighborhood network.

Background Questions

Before We Begin

Do you have any questions about Hey, Neighbor!, the test process, or what we'll be doing today? Please feel free to ask anything now.

About You and Your Experience

1. **How long have you been a student at Calvin University?**
 - Freshman / Sophomore / Junior / Senior / Graduate
2. **Have you ever needed to borrow items like textbooks, tools, or supplies from someone?**
 - If yes, how did you go about finding them?
3. **Have you ever lent items to other students?**
 - If yes, how did you arrange this?
4. **What items do you currently own that you rarely use but might be willing to lend out?**
5. **Have you used any sharing or lending platforms before?** (e.g., Facebook Marketplace, Buy Nothing groups, Craigslist, rental apps)
 - If yes, which ones and what was your experience?
6. **How comfortable are you with using web applications in general?**
 - Very comfortable / Somewhat comfortable / Not very comfortable

Important Reminder: Think Aloud!

As you use Hey, Neighbor!, please verbalize your thoughts as much as possible. Tell us:

- What you're looking for
- What you expect when you click something
- Anything confusing, surprising, or unclear
- Whether something feels easy or frustrating

There's no such thing as too much feedback — everything you say helps us improve.

General Tasks

Task 1 - Navigate the Onboarding Welcome Screens

Go through the welcome screens and enter the app.

Task 2 – Sign Up

Create an account as a new user.

Task 3 – Browse Items

You want to see what kinds of things other students are lending. You are saving up for a desk chair, in the meantime, borrow the office chair.

Task 4 – Search for an Item

You need a vacuum for your room. Can you use the app to find out what vacuum options are available?

Task 5 – Save an Item You Like

You've found a vacuum you like but you're not ready to borrow it yet. Can you save it in a way that makes it easy to find again later?

Task 6 – Open an Item and Learn Who Listed It

You found a vacuum you want to borrow, but you want to know more about who listed it. Can you find out who listed a specific item?

Task 8 – Contact the Lister

You have a question about an item (for example, how long you can borrow it). Can you send a message to the person who listed it?

Task 9 – List an Item of Your Own

You own something that you're willing to lend to other students (for example, an old textbook). Can you add that item to the app so that other people can see it? (for now use a picture in your camera and write something for the title and description)

Task 10 – Edit an Item You Listed

After listing an item, you realize you want to change its name or photo. Can you find a way to edit your existing listing?

Task 11 – Delete an Item You No Longer Want to Lend

You no longer want to lend a particular item. Can you remove that item from your listings?

Final Observations – Do you have any final observations on the app? Would you consider using it?

Thank You!

Thank you so much for taking the time to test Hey, Neighbor! today. Your feedback is really helpful and will make a real difference in improving the platform for Calvin students.

We appreciate your honesty and willingness to share your thoughts as you worked through the tasks. Your input will help us make Hey, Neighbor! easier to use and more useful for the campus community.

If you think of anything else after today, feel free to reach out. Thanks again for your help!
